Notes: After comparing salary rates of the elected officials at other neighboring small communities, personnel services for the town commission increased in 2023 to be more comparable. Each commissioner is paid \$500 per month and the mayor is paid \$800 per month. Capital outlay in the town commission's budget is for vision planning to develop future planning documents.

Note: In 2004 the Town Commission approved Ordinance 2004-09, establishing an increase in water rates for a five consecutive year period. The final increase of the ordinance was never put into effect. The 2024 budgeted water revenues for water use reflect this new rate.

2022 ARPA Revenue and Allocations:	
Revenue	\$318,042
Participation in opiod awareness	(\$4,600)
Master planning services	(\$16,500)
Balance	\$296,942

Note: The town is carrying forward ARPA funds designated for water infrastructure projects. Of the \$318,042 received, \$21,100 has been designated or spent. In February 2023 the town was placed on the DWSRF (Drinking Water State Revolving Fund) through FDEP for Water Distribution System Upgrades. The town was approved for planning and design at \$515,100 with 50% loan forgiveness.

Town of Micanopy Five-Year Capital Improvement Plan

What is the Five-Year Capital Improvement Program?

The information that follows represents the Town of Micanopy's five-year Capital Improvement Program. In it, projects have been identified that need to be addressed over the next five fiscal years. The program serves as a crucial planning component within the Town's overall operational management structure. The program provides important information that aids in maintaining the Town's critical infrastructure as well as the equipment needed to carry out the delivery of services to the community.

What is a Capital Project?

For the purposes of the Capital Improvement Program, a capital project has been identified by the Town as any project that exceeds \$5,000 and has an estimated useful life of greater than one year. This includes items like streets, park improvements, and other equipment. This program identifies those projects that meet the criteria above that will be addressed in the next five years.

How is this program developed?

The program is developed in Town Hall using projected information submitted by departments within the Town. Once all project requests have been received, the requests are reviewed and added to the program where appropriate. Projects identified in previous programs remain in the current program unless a different priority or strategy makes it unnecessary to do so. The Town Commission holds work sessions to discuss the program, and citizen input is sought through both the work session and through a public hearing process. Once the public hearing has been completed, the program is finalized and adopted by the Town Commission.

How is the Five-Year Capital Improvement Program Organized?

The program is developed on a departmental basis as well as a fund basis. Summaries for the overall programs are listed by fund to help analyze the impact to each fund within the Town. The summaries that follow on the next several pages will highlight the annual cost of the projects for each fund per year as well as summarizing the sources of funding that have been identified each year to complete the related slate of projects. Keep in mind that not all projects that are in this document will be completed. Over the next several years, priorities may change, and funding sources may be eliminated making the completion of the project imprudent or impossible.

Program Summary

On a departmental basis, the five-year Capital Improvement Program includes the following request levels, presented by fiscal year:

Total	\$2,960,000	\$2,200,000	\$2,000,000	\$212,000	\$300,000	\$7,672,000

Source of Funds

It is also important to identify the sources of funding that will be used to fund each year's projects. This helps to determine the viability of each year's requests and serves as a critical planning tool for current and future operating budgets. For the current five-year program, the following sources of funding have been identified by fiscal year:

	Fiscal Year ending September 30,				Grand

Grant Sources

Grant sources presented in this 5-year CIP include the remaining of the town's allocated AARPA funds from 2021, the partnership grant from Alachua County Board of County Commission from the 2021 WSPP and Other Infrastructure Surtax, and Florida Department of Environment Protection Drinking Water State Revolving Fund (DWSRF).

AARPA - The town's allocated amount was \$318,042. The town commission allocated \$4,600 to participate in the Opiod Awareness Campaign with the other nine municipalities and spent \$16,500 developing a master plan for the water distribution system. The remaining \$296,942 has been allocated to water infrastructure projects.

Partnership Grant - WSPP & Infrastructure Surtax - Alachua County has approved each municipality to receive \$333,000 in matching funds for elegible Wild Spaces Public Places and \$333,000 for Other Infrastructure Surtax projects.

DWSRF - In February 2023, FDEP approved the Town of Micanopy for 50% grant for water quality and distribution system planning and construction projects.

Projects by Fiscal Year

The following tables identify specific projects that have been requested in each of the five fiscal years. The summary lists the department that is making the request, the name of the project, and the estimated cost. The first year of the program will be used in the development of the annual operation budget, a process which will begin shortly after final approval and adoption of the capital improvement program.

First Year in CIP: 2024

Project Category: Preserve Projects - bathrooms, trails, cleanup, signs

Department: Parks & Recreation

Total Project Cost: \$150,000

Project Description: Construct bathrooms at the preserve, create new trails on the annex that connect to

existing trail system, cleanup and remodel existing residential structure on the annex,

and develop new signage for the trails and throughout the property.

Project Justification and/or Need: There are no bathroom facilities on the property and this will be required in order to

use for educational purposes. The annex property will need to be connected to the

existing property for public use.

Project Impact/Benefit: Create a public space for people to enjoy natural north Florida.

Operating Fund Impact: Possibly create a caretaker residence to eliminate additional staff time

and minimize a budget impact.

Project Category: Water Distribution System - Planning

Department: Water

Total Project Cost: \$515,000

Project Description: Address drinking water distribution system and water

quality concerns.

Project Justification and/or Need: High iron and organics in the aquifer create challenges for maintaining

adequate treatment standards.

Project Impact/Benefit: Provide better quality drinking water for the residents of Micanopy.

Operating Fund Impact: The town was awarded 50% grant and 50% will be funded through a low interest loan

estimated at 1% interest.

Total Project Cost: \$2,000,000

Project Description: Aquire land, design, and build facility to meet project requirement for the CDBG-CV

2024

grant awarded to the Town of Micanopy in early 2022.

Project Justification and/or Need:

Due to a duplication of benefits from the original CDBG-CV grant award for broadband,

the Town intends to reallocate some of the grant award for another eligible project.

Project Impact/Benefit: Create a public space for people to gain access to technology, obtain

medical and dental care, and receive food through public distribution

programs.

Operating Fund Impact: Minimal impact to operating budget due to utilizing grant funds. The

building will be leased to a nonprofit for ongoing maintenance.
